## **Sittercity is Impressive and User-Friendly**

...There are these websites now... there are lots of them. Sittercity.com, Babysitters. Like dating websites, these are for parents to reach out and find babysitters. **Sittercity is the one we've been most impressed with.** They have more than 150,000 babysitters in 30 cities and areas. They are user-friendly. Parents who used a particular city will put a rating on that babysitter's profile. You can do your own background and reference checks. We've heard good things from parents who found nice college and graduate students. We like that....
